Summary

- Aditya Kumar
  Chief Technology Officer, edwisor.com

We will cover with the following concepts

1) Summary discussion

2) Things to look forward to.

You have come a really long way

- We started with the basics of Javascript and we have reached the end of deployment!

- Practice as much as you can

- Try and replicate the functionalities/websites that you love the most. That's the best way to learn.

- Take every problem statement very seriously and give it your best.

- **Revise everything!**

Things to look forward to..

- Experience !!!!!!!

Congrats…..
