Design Advance - Bootstrap Utilities

- Aditya Kumar
  Chief Technology Officer, edwisor.com

We will cover with the following concepts

1) What are bootstrap utilities?

2) Using the utilities - border, Display utility for hiding

3) Not recommended - Floating, clearfix.

Utility classes are there to spice things up

- https://getbootstrap.com/docs/4.0/utilities/borders/

- Let me show the example of two most commonly used utility classes -
  - Border
  - Display

Use of Few utility classes
is not recommended at this level

- Floating

- Clearfix

Next Steps -

1) Fonts and Footer
