Jquery Basics - Summary

- Aditya Kumar
  Chief Technology Officer, edwisor.com

We will cover with the following concepts

1) Relating to some real life website

2) Summary and what comes next

Lets try to reverse engineer a few websites

- https://paytm.com/

- https://www.oyorooms.com/

- https://www.flipkart.com/

- https://www.urbanclap.com/

We have learnt how to create dynamism

- Finding elements

- Manipulating them

- Reacting to events on webpage

We will move to advance features now

- Fetching data using a JSON file

- Fetching data from an API

- Using Jquery libraries

- Dos and Don'ts for production

Next Steps -

1) Jquery Advance
